

How to add IP Address for Credit Reports

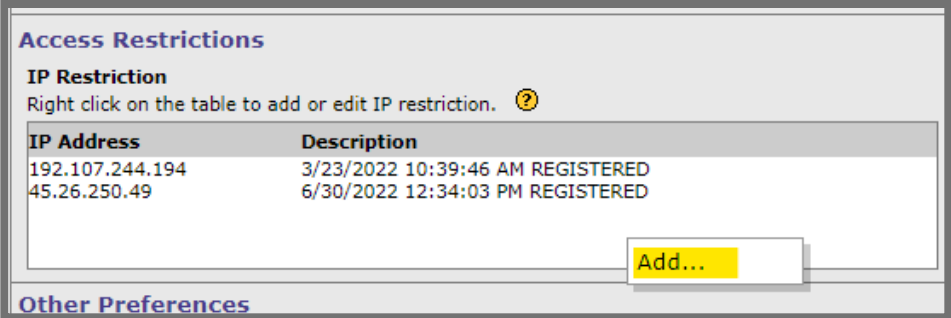

1. Login to credit agency website.
2. Locate the **"My Account"** hyperlink on the main menu.

3. You will see the IP addresses already listed to your account in the table below.

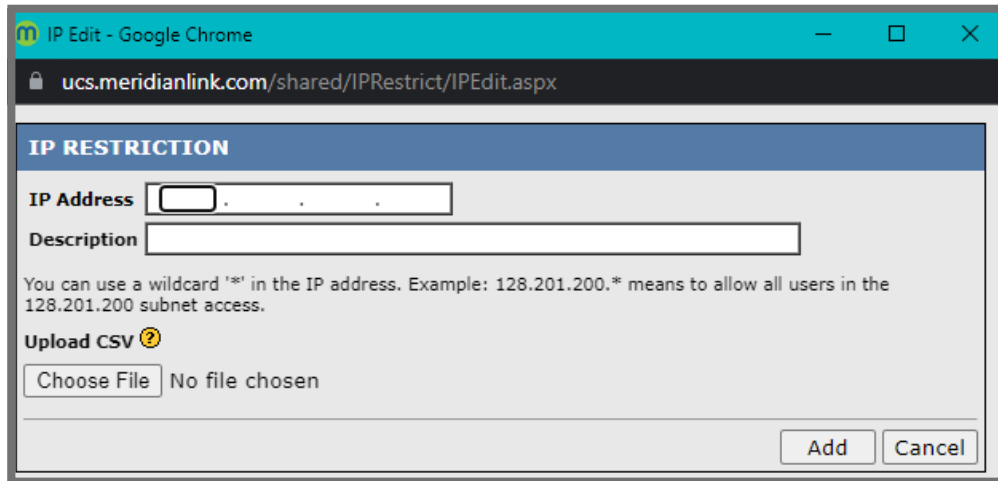

4. To add a new IP address, **right click on the table and click "Add"**.

5. Once you click "Add..." a pop-up screen will show where you can add our IP address, **45.26.250.49**. Each set of numbers will need to go into its own section, so please follow the guides accordingly.

For a description, please add "LoanWyse." Once the information is entered, click "Add" and the now added IP address will be listed.

IP Edit - Google Chrome
